2021-22

Message by Principal…

I welcome you all to Government College of Engineering Jalgaon, an autonomous institute of Government of Maharashtra and NAAC accredited institute. With a pure global vision and a strong connection between faculty members, students and the corporate world we are aimed at preparing tomorrow's globally accepted engineers and technological leaders. We aim to develop engineers who will be confidently vibrant and self-reliant in every sphere including human skills and ethical values.

Dr. G. M. Malwatkar, Principal

The extensive infrastructure, well-equipped laboratories, resourceful library with e-learning facilities, competent, qualified and experienced faculty, well-designed hostel, guest house, catering arrangements, facilities for indoor and outdoor recreation provides a good environment for grooming of graduating engineers.

About Institute

Government College of Engineering, Jalgaon (an Autonomous Institute of Government of Maharashtra), established in 1996 in 19.38 acres of land in the heart of Jalgaon City. It is approved by the Directorate of Technical Education Mumbai, AICTE, New Delhi and affiliated to KBC North Maharashtra University Jalgaon. The institute is under 2(f) of UGC and in process to get 12(B) of UGC act 1956. The Institute became autonomous in 2014. The institute is National Assessment and Accreditation Council (NAAC) accredited and its two

1996 - Established and Affiliated to NMU, Jalgaon 3 UG courses
2007 - Occupied present building- 19.35 Acres and 2 UG courses
2009 - 3 UG programme, E &TC, Mechanical & Instrumentation accredited
2010 – Civil Engg. and M. E. (E & TC) programme added
2012-16 - Inclusion in TEQIP II (Rs. 15 Crore)
2014 - Autonomy granted by UGC & NMU
2018 – NBA Reaccredited Mechanical & Instrumentation
   - Selected under TEQIP III (Rs. 7 crore)
   - NAAC accreditation with B+ (2.67)
2019- 2 PG Programmes added

programmes (Instrumentation and Mechanical) were accredited by National Board of Accreditation(NBA), New Delhi. The institute is selected by the Central and State Government for Technical Education Quality Improvement Program (TEQIP) phase-III after successful completion of TEQIP-II. The Institute is imparting professional education in the fields of engineering with emphasis on ethical and human values and abides to provide quality entrants with responsible social values. At present, the institute offers B. Tech. (Bachelors of Technology) programmes in Civil, Computer, Electrical, Electronics and Telecommunication, Instrumentation and Mechanical Engineering. A postgraduate course (M. Tech.) Course in Electronics and Telecommunications Engineering with specialization in Digital Systems, Mechanical in Heat Power engg., Electrical Instrumentation and control engineering. The Institute also offers research programs (PhD) in Civil, Electrical, Electronics and Telecommunication, Instrumentation and Mechanical Engineering.

CENTRAL FACILITIES

The Institute campus consists of the main academic and administrative building, workshop building, boys and girls hostels of capacity 360 and 160 respectively, a guest house, staff quarters (32 no.) and faculty quarters (16 no.). Principal quarter is also in the campus in addition to the newly constructed minority girls hostel.

INFRASTRUCTURE

Institute is spread over 19.38 acres of land in the heart of Jalgaon city. All departments possess well equipped laboratories and classrooms to provide great learning ambiance. Boys' and girls' hostels, officers and staff residential facilities are available on campus. The institute has an AC seminar hall to organize institute level programs such as Seminar, workshop, T&P activities etc.

Academic and Administrative Building

Central Computing Laboratory

COMPUTING FACILITY

The institute is connected to the internet through 50 Mbps BSNL and 1 Gbps NKN lease line, wi-fi campus. The server room has six different specifications and computational power. Students have access to about 750 computers equipped with the latest hardware and software specifications spread over each departmental and central computer laboratory.

LABORATORY

Each department provides the latest laboratory facilities for the practical as well as research purposes. All the laboratories are upgraded under TEQIP funding. Modem equipment and software are procured for practical knowledge required for design and analysis. The laboratories include display of course outcomes and program educational objectives.

Modern Laboratory

Central Library

LIBRARY

The central library has a collection of nearly 34939 books of around 6,300 titles and bound periodicals with subscription of various Indian/International technical journals / periodicals, newspapers and magazines on different topics. The library uses SLIM software for transection and has open access. It also facilitates 15 digital library nodes and course viewing of NPTEL.

Interactive Events In Institute

Institute organized an International Conference on 'Recent Trends in Engineering & Science (ICRTES-2017) during 20-21 January 2017. More than 200 participants participated in the conference. The institute also organized Regional Industry Institute interaction meet on 15th January 2018 at Jalgaon and industry-Alumni meet on 20th January 2018 at Pune

STTP FOR FACULTY & STAFF

Institute organizes 36 short term training programs (STTP) for faculty and 55 training programmes for students during the last five years. Every faculty/staff members and students participated in STTP or training for improving the knowledge base at present industrial development and also participated in management development programs.

INDUSTRIAL VISITS

In order to know industrial work and development, every year industrial visits are organized by every department within or outside Maharashtra state. Industrial visit enriches the students by knowing the aspect and working in the industries.

Curricular and Extracurricular Activities

TECHNOVISION

Technovision is a national level paper presentation competition organized every year at the institute. This gives the student a platform to enhance in the research activity. The platform also creates among the students regarding writing of research papers and its presentation.

TECHNOARENA

Technoarena is the national level technical fest of the institute. Students have a great platform to show their various technical as well as managerial skills in technical fields. The students from different institutes actively participated in all the events organized during the program

ABHIVYAKTI

Abhivyakti is a national level cultural fest organized by the gymkhana every year to give a platform to the students to show their skills in cultural activities. In this program, all the activities are decided by the students for the students under the mentorship of faculty in-charge.

JALLOSH

Toward the end of the academic year, the institute's annual gathering program known as JALLOSH is conducted every year. Various departmental level, individual level competitions are conducted under this event.

INDUSTRY INSTITUTE INTERACTION CELL

The goal of the institution is to produce skilled, globally competent professionals through quality technical education and to prepare them for immediate employment. Industries engross these knowledgeable professionals and enhance its production capabilities by contributing the latest technologies. To produce proficient graduates ready for the industry, it is necessary to know the requirements of the industries through industry-institute interaction. Hence, a good and vibrant industry institute interaction to promote education and entrepreneurship is definitely required.

Industry-institute interaction (I-I-I) provides the best platform for showcasing the best practices, latest technological advancements, and their implementation and impact on the industry. Also, I-I-I promotes industry experts to participate in curriculum design which plays a significant role in preparing the students ready for the industry. Teaching-learning processes can be improved by integrating industrial training to the students which also provides an exposure of the corporate world. Students should be encouraged to undertake the final year projects in the industry with a joint supervisor from the industry. I-I-I promotes development of entrepreneurs which further leads to rapid industrialization and hence improved well-being of a country. I-I-I can also increase the research and development activities in both industries as well as institutions which further leads the nation to grow technologically and socioeconomically.

In keeping with the thrust areas, following action plan has been prepared by the III Cell to fulfil the aims of Industry Institute Interaction into achievements:

i. Establishing / continuing liaison between faculty members in the Institute, representatives from the Industries and representatives from organizations involved in the promotion of industrial development for mutual benefits to both the systems i.e. industry and institute.

ii. Identifying and preparing / updating a list of executives and technologists from various industries / establishments in the region and working out a system of inviting them to address the faculty members and/or students.

iii. Preparing / updating a comprehensive directory of technology experts in different fields of expertise and know-how and forging continuing links with them through various means of involvement like talks, guest lectures, research collaboration, students project guidance, seminars, etc.

iv. Reviewing graduate curricula and reorient these to meet the needs of the industry by involving experts from industry in framing syllabi.

v. Providing the student training/apprenticeship in industry.

vi. Organising refresher courses / training programmes/soft skills/aptitude programs. The activities of training and placement are based on the budgetary approved from the institute.

vii. Support and motivation to students to GATE and other competitive examinations through the cell.

TRAINING AND PLACEMENT OFFICE: OVERVIEW AND ACTIVITIES

- The college has imparted Soft Skills and Aptitude Training Program into the regular curricular from Fifth semester till Eighth Semester, so that the student admitted to the college would be industry/Placement ready before he/she comes to the Final year of the course.
- The alumni work in industries like TCS, Honeywell, Johnson , IBM, TUDIP, Bosch, Wipro, Toyo India, etc. prove the fact that the institute is known all over India and abroad as a provider of dynamic and trained engineers to the industry.

Aptitude Test

Training & Placement Cell

Placements form an integral part of the institute. The Institute has a separate Training and Placement Cell. The placement committee consists of one faculty representing each department and the committee decides the guidelines for the placement activity.

The guest lectures and training programs are arranged for the students. The training and placement division has a focused approach to prepare students right from the second year of joining the college. Experienced teaching staff take care of the technological abilities to recall knowledge gained during academics for application at the workplace and soft skills required in the industry today. These training include personality development, communication skills, and analytical abilities.

We also conduct campus interviews and include presentation, aptitude tests, group discussion and interview techniques.

The T&P cell aim to accomplish the following every academic year:

- Organizing pre-placement seminar by companies/industries,
- Maintaining database of companies and establish strategic links for campus recruitments,
- Coordinating with companies to learn about their recruitment procedure,
- Identifying the needs and expectations of the companies to assist them in recruiting the most suitable candidates,
- Organizing training for students (soft skills, technical sessions, and mock interviews),

WHY TO RECRUIT GCOEJ STUDENTS?

➢ All the students are admitted on the basis of state merit from all over Maharashtra.

➢ As an autonomous institute, the curriculum of all courses is at par with industry needs.

➢ The institute and students are adhering to all activities shown in the academic calendar of the institute, resulting in developing the importance of time among students.

➢ Every morning, the National Anthem is sung before the classes to inoculate national attitudes among the students.

➢ The students in the institute are mentally and physically strong, sincere and hardworking.

➢ The students are actively participating in technical, social, research, and community development programs.

Placement Record of A.Y 2021-22

Sr. No	Name of Company	No. of Placements
1	Tata Consultancy Services(TCS)	23
2	Wipro	13
3	Capgemini	20
4	Tech Mahindra's Cerium Systems	03
5	Birlasoft Limited	02
6	Raja Software Pvt. Ltd	02
	Total	63

No. of Students Placed Disciplinewise

➢ 65 students are placed from 2021-22 batch till 24th November 2021.
